

Community Service Runs Deep - Affordable Locksmith

David Sutton, proud owner of Affordable Locksmith

Through great effort David Sutton, owner of Affordable Locksmith in Franklin, Tennessee, goes beyond customer service to include community service.

In 1996 Sutton was working for an emergency road service company providing lockouts and other services. Sutton decided he wanted to become a certified locksmith so he completed several home courses and a lot of on-the-job training to achieve his goal. The same year Sutton passed all state tests, became a certified locksmith, and Affordable Locksmith was born. Since that time Sutton has never looked back and continues his ongoing training.

In 2001 Sutton became the AAA primary locksmith contractor for Williamson County in Tennessee, which includes Franklin and Brentwood. Since then he has served the county well and has been recognized by AAA as a Service Provider of Excellence. Affordable Locksmith works hard to achieve customer satisfaction and is a member of the Better Business Bureau. Sutton also works with his church and is in charge of A Room at the Inn, a program that provides a place to sleep and food for the homeless.

Affordable Locksmith is a real asset to AAA members and the community they serve. Thank you.
